Themes:

Global Blockchain Hackathon is looking for participants to come up with an innovative concept for an application based on blockchain technologies that shows how the principle of secure, public ledgers can be used to disrupt conventional business models.

Think broad, your concept can address business applications as diverse as Health, Education, Government services, Property, Digital Rights, the Internet of Things, etc.

Registration Fees: None

Registration Link: bit.ly/gbh_bb

Rules and Regulations:

- All code, design and assets must be written and created during the duration of the Hackathon. You cannot use existing code that you have written and finish it during the event.
- The team members need to bring their own laptops, cell phones, mobile charger, power bank, multi-plug, etc. It is better if the team keeps an USB internet modem with them so that they can use it if any unavoidable circumstance occurs.
- The organizers reserve the right to make changes to the event program.
- You are permitted to use any publicly available open source resources (APIs, images, datasets, etc.) in your prototype.
- Participants are free to make plans and brainstorm prior to the event.
- Only registered teams will be allowed to participate in the hackathon.

FAQs:

- 1) Do I need to pay any money to register for the Global Blockchain Hackathon?
No. You do not have to pay anything to anyone to register yourself for any Global Blockchain Hackathon.
- 2) Do I need to have any specific qualifications to be a participant for the Hackathon?
If you love to code, you are more than welcome to participate in the Hackathon.
- 3) Do we need to have the entire idea fully working?
The entire idea need not be fully implemented however, the submission should be functional so that it can be reviewed by the judges.
- 4) Since there is no specific technology mentioned, are there any restrictions on using number of pre-built libraries?
There is no restriction to use any language, technology stack, or libraries. You can use any of them to create the web/mobile application.
- 5) Who will own the IP (Intellectual Property) Rights to the product that I have built?
The developer(s) of the application will have all rights and own the IP of the product.
- 6) If I am not a resident of Mumbai, is arrangement for accommodation for the hackathon possible?
Yes, arrangements will be made (On a chargeable basis).
